

■■■■ Chef Bems: Normal Chat to Add-to-Cart Flowchart

A simple visual map showing how customer conversations naturally turn into grocery orders.

Target n8n Webhook: https://n8n.srv1987482.hstgr.cloud/webhook/chef-bems

The 4-Step Conversational Shopping Journey

STEP 1: CUSTOMER STARTS CHATTING (EXPLORATION)

Cart: ■ Empty (0 items)

Customer Action: Opens chat and asks general cooking questions:
'What healthy Nigerian soup can I cook for someone managing blood sugar?'

Chef Bems Answer: Gives friendly culinary advice:
'I recommend Okro Soup or Afang Soup! They are packed with fiber and have a low glycemic index. Which would you like to prepare?'

Status:

- Normal conversation
- Advice & suggestions only
- Nothing in cart yet

■ Customer continues chatting and asks for adjustments ■

STEP 2: RECIPE REFINEMENT & FAMILY SIZING (DISCUSSION)

Cart: ■ Empty (0 items)

Customer Action: Asks for portions, substitutions, and steps:
'How do I make the Okro Soup for 5 people? Can I use fresh Catfish instead of beef?'

Chef Bems Answer: Customizes the recipe steps and portion quantities:
'Yes! Fresh Catfish goes great with Okro and Ugu leaves. For 5 people, you will need 1kg Okro, 2 Catfish, Palm Oil, and Ugu. Here is the step-by-step cooking guide...'

Status:

- Chat memory active
- Portions adjusted for 5
- Ingredients finalized

■ Customer decides to buy and says 'Add to cart' ■

STEP 3: CUSTOMER TRIGGERS 'ADD TO CART' (BUYING INTENT)

■ Intent Detected

Customer Action: Expresses buying intent in normal English:
'Awesome! Please add all those ingredients to my cart now.'

AI System Detection:
Timi's n8n AI detects the request to purchase and attaches the 4 grocery products to the response.

Products Selected:

1. Fresh Okro (1kg)
2. Fresh Catfish (2kg)
3. Red Palm Oil (1L)
4. Fresh Ugu (2 bunches)

■ Website automatically loads the items into the shopping cart ■

STEP 4: AUTOMATIC CART LOAD & CHECKOUT READY

■ 4 Items in Cart (■13,500)

What the Customer Sees on Screen:

1. Chef Bems replies: *'I have added all 4 fresh ingredients for Okro Soup to your shopping cart!'*
2. A green notification toast slides in: **■ 4 items added to your cart!**
3. The shopping cart icon at the top of the website instantly updates from **■ 0** to **■ 4**.
4. Customer can open their cart drawer or tap **'Checkout'** to complete payment.

Result:

- Zero manual searching
- All items in cart
- Ready for payment!

Summary: What Timi's n8n AI Returns When Customer Says 'Add to Cart'

```
{
  "reply": "I have added all 4 fresh ingredients for Okro Soup directly into your shopping cart!",
